

 caesarstone®
Quartz Surfaces

The Original Quartz Surface

The unique physical and aesthetic properties of CaesarStone's quartz surfaces have established a unique product genre. By fusing leading-edge technology with design innovation, CaesarStone makes the finest quartz surfaces in the world.

Nature Perfected Comprised of 93% natural quartz, one of nature's strongest minerals, CaesarStone is resistant to stains, scratches, most household chemicals and moderate heat. Our firm dedication to quality has earned us ISO 9001 certification.

High Style, Low Maintenance CaesarStone never needs sealing, and its hard, nonporous surface makes cleaning simple. In most cases, soap and water or a mild detergent are all that are required to keep your countertop looking like new.

Colors That Captivate CaesarStone's innovative development team continually creates breakthrough color and quartz designs that influence trends and inspire creative applications.

Edge Profiles The unique properties and durability of CaesarStone's quartz surfaces allow for a wide range of edge profile design options.

Look and Feel CaesarStone's quartz surfaces retain the cool, tactile qualities of natural stone with aggregates ranging from fine to coarse-grained color blends for varied visual texture. Three finishes expand the design possibilities even further: polished, honed (matte) and textured.

Lifetime* Warranty The first of its kind, covering your surface for as long as you own your home.

Find Out More For further information about CaesarStone's quartz surfaces, to order samples and to find an authorized dealer near you, please visit our web site at www.CaesarStoneUS.com.
