MEET OUR  
INFINITI  
SERIES.

# HI, WE'RE ATLAS.

All manufacturers claim their equipment is durable and reliable. We could say the same things too, but we've found that a hands-on approach with attention to detail is what makes us different—and it's how we can help you take your serving line to the next level with our world-class INFINITI series.

## The Atlas difference:

- **We're committed to hands-on manufacturing,** so our products will always live up to the name that operators have relied on for 50+ years
- **We never compromise on the details—** you get what you pay for, so our premium products perform perfectly
- **We provide genuine customer service** by helping you make the best equipment choice and always standing behind our products

# INFINITE POSSIBILITIES.

INFINITI is the counter concept that provides an unprecedented level of simplicity, elegance and flexibility to servery design. From front panel configurations to exterior finishes and state-of-the-art food guard options, the Atlas INFINITI concept is limited only by your imagination.

Combine Atlas Metal's renowned reputation for quality and dependability with the creative possibilities of INFINITI and you are assured not only of true craftsmanship and durability, but distinctive solutions for your food serving needs.

HOT FOOD COUNTER

# COUNTLESS COUNTER TOP OPTIONS.

Stainless steel, solid surface materials, granite and more—the list of counter top materials is infinite. Your choices are limited only by your imagination. From the architect and designer who have a creative concept to the consultant who writes the project specifications, you can rely on Atlas Metal to build it and build it to last.

The INFINITI counter concept, combined with the many Atlas accessories, provides you with the flexibility and versatility to help you design a unique serving counter system from the ground up.

# A PARTNERSHIP OF STYLE AND QUALITY.

The Atlas INFINITI concept provides you with attractive servery designs that allow you to select counter top options, counter profiles and exterior facades.

In addition, you can select quality food guards through a variety of partners in a range of designs and configurations.

# INFINITELY SUPERIOR COUNTERS.

Atlas instills quality manufacturing and engineering into every design project. By using the INFINITI concept you will be able to easily modify the counter height, width, exterior décor and profile that will meet your precise design requirements.

Detailed drawings and high tech fabrication result in end products that match your expectations. Additionally,

our nationwide team of representatives ensures a local presence in your marketplace and a person who can meet directly with you to help with your designs and finalize your equipment process.

When you combine your creativity with Atlas quality and expertise you get unmatched serving systems for your every need.

## THE BIG PICTURE.

Once you narrow down the infinite possibilities, the results are spectacular. Front panel materials, exterior finishes and state-of-the-art food guard options are limited only by your imagination.

It's the perfect servery design with action stations that are easily accessible to visually merchandise selection and increase food appeal so it is not the fixture that is the message, but the food.

## A WORLD OF FLEXIBILITY.

The clean lines and attention to detail INFINITI offers allow you the freedom to focus on developing the project specifications while providing great flexibility and functionality for your clients.

If you're looking for long-term flexibility and a new way to increase traffic flow and reduce customer congestion, look to INFINITI.

# EXPLORE THE POSSIBILITIES.

We don't call it the INFINITI line for nothing. It's because your opportunities for customization are unlimited. Choose your functions. Choose your design. Choose your accessories. Build a unique serving counter system from the ground up.

Here's just a taste of the ways we can help you bring your serving line vision to life:

# A LASTING PARTNERSHIP.

There's more than one way to build a counter. Within specification guidelines Atlas can figure out how to accomplish the same end result and design that might be even more cost-effective than your drawings.

Catering for the U.S. Military is an involved process that requires strict standards, optimal designs and unique specifications. Atlas has been reaching and setting these standards for over 50 years by making quality products that last.

Let us explain the INFINITI concept to you in detail. Give us the opportunity to review, engineer and even design any type of serving counter for your next project. Contact us today.
