

BEECH OVENS™

WORLD LEADER IN SPECTACULAR COOKING EQUIPMENT

CHURRASCO

Beech Ovens is part of The Middleby Corporation. Located in Brisbane Australia, we supply standard and customised equipment to the luxury hotel/restaurant market world-wide. As World Leader in Spectacular Cooking Equipment, we specialise in wood and gas products that entice your clients, bringing dramatic design to your kitchen.

The Beech Churrasco recreates the flavour of traditional Brazilian cooking. The magic of the churrasco lies in the special technique of cooking skewered meats over live coals, fire pit or radiant gas burners. We have applied our extensive experience in re-engineering traditional cooking techniques to bring this culinary style into the modern display kitchen. Beech's unmatched high performance standards together with our unique ability to custom design have been applied to create the churrasco.

We offer a variety of churrasco units with standard sizes ranging from 900 – 1800mm wide. Standard churrascos are supplied with a stainless steel finish however a variety of alternate facades are available. We could for example supply the unit in any colour you choose, or apply an 'old world' black metal or textured stainless finish.

FEATURES AND ACCESSORIES

- Robust design and patented manufacturing style for enhanced durability
- The units can burn solid fuel (such as wood, charcoal or lava rocks) or any gas type
