

## PANINI VG

- Vitroceramic infrared heat for fast pre-heating and cooking
- Medium and Xtra Large models
- Pre-heats in 3 minutes and heats sandwiches in 2-2.5 minutes, with combined radiant and contact heat
- Does not require seasoning and produces very little smoke
- Robust, heavy duty construction
- Easy to clean and resists carbon build-up
- 3 position, built-in electronic timer and internal crumb tray
- Ribbed top/smooth bottom or all smooth heavy-duty, vitroceramic cooking plates
- Furnished with removable toasting collar for faster performance
- Available in 120V (Medium) or 208/240V (All Models)

## PANINI PREMIUM

- Enameled cast iron cooking surface for easy cleaning
- Medium and Xtra Large models
- Pre-heats in 8.5 minutes and heats sandwiches in 3 minutes
- Even heat distribution with a patented heating element design
- Selector switch for panini grill or bottom plate only operation
- Robust, heavy duty construction
- Use a scouring, scrubbing sponge to keep it clean and free from carbon build up
- 3 position, built in electronic timer and internal crumb tray
- All grooved or grooved top/smooth bottom plates
- Available in 120V (Medium only) and 208/240V (All Models)

## PANINI ORIGINAL

- Cast iron, heavy duty plates that retain heat for all day operation
- 5 footprints: Small, Medium, Large, Xtra Large and Square
- Pre-heats in 15 minutes and heats sandwiches in 3 minutes
- Square model comes equipped with selector switch, for panini grill or bottom plate only operation
- Robust, heavy-duty construction
- Clean daily with scraper and grill brush to prevent carbon build-up
- Optional mechanical or electronic timers
- All grooved, all smooth or mixed plates
- Available in 120V (Small, Medium and Square), 208/240V (All models)
