- Qatar Olympic Sports Club - Qatar
- Five Star Hotel & Residences at Marsa Arabia - Qatar
- Sandals - Montego Bay
- National Guard Hospital - Saudi Arabia

Established in 1955, IMC/Teddy is a Consultant/Designer driven manufacturer of Food Service Equipment. We welcome product recommendations & upgrade suggestions from you. Our mission is to introduce new & innovative products in food service equipment & storage/handling systems.

IMC only uses 300 series stainless steel which is recommended for high corrosion resistance & uniformity of finish. Every IMC product will perform its intended function even in the most punishing work environment.

Production begins with Laser & CNC machine work & the final product is finished with a non-directional brushed satin. The finish has the ability to hide & blend scratches for many years. Each product is then carefully inspected & protected for delivery to the customer. All products are 100% manufactured in USA.

For a complete catalog or the representative nearest to you, visit www.imcteddy.com or contact us below.
