# WE ARE **MORE** THAN JUST CHAIRS!

**just**

*/jəst/*

adjective

"... according to what is morally right and fair"

Yes, our chairs are where we are **just**. This ensures you get the best chairs and the best service.

But, we supply all types of commercial furniture. And, we also deliver that same **just** commitment on every product, for all your front-of-house projects.

We are

 **Just Chairs**  
and More!

# ABOUT

## JCM 1-YEAR / 5-YEAR / 12-YEAR STRUCTURAL LIMITED WARRANTY

Just Chairs and More! warrants all JCM products to be free of manufacturing defects in material and workmanship as follows:

- Steel and aluminum banquet chairs:  
12 Years from date of purchase
- German Beech Wood Seating:  
5 Years from date of purchase
- Welded Steel Furniture:  
5 Years from date of purchase
- Powder Coated Stacking Furniture:  
5 Years from date of purchase
- TBX Table Bases:  
5 Years from date of purchase
- Millwork, Tops & Booths:  
1 Year from date of purchase
- Outdoor & Chrome Furniture:  
1 Year from date of purchase

From the original date of purchase, by the original purchaser or JCM dealer unless otherwise noted.

JCM's warranty responsibility is limited to the cost of replacement or repair (at JCM's discretion) of the JCM products. FOB Factory.

## WOOD STANDARDS

### REGULATIONS & EXCEPTIONS

U.S. Commercial Standards/Regulations require us to advise the customer that a wood product may experience some degree of warpage and thickness variation. We do not warranty warpage.

Customer assumes responsibility for normal wear and tear.

Products sold as 'closeouts', 'as-is' and 'used' have no warranties.

JCM is not responsible for warranty claims reported after 30 days from first recognition of the issue by the end-user.

# GENERAL INFORMATION

## SUPERIOR PACKAGING

### NO ONE WRAPS LIKE WE DO

Every JCM product is fully wrapped and protected, exceeding industry standards. Every chair leg is covered. Every glide is protected.

Our goal is to ensure that the quality that leaves our dock, reaches the door, perfect & undamaged.

## WHERE TO BUY

### YOUR LOCAL SUPPORT NETWORK

JCM sells all products via dealers, designers, contractors and consultants. This ensures that every product is sold with expertise and local support, before and after the sale.

We are happy to assist anyone with layout, design, and planning.

Our nationwide sales network can also assist or provide referrals to local consultants.

Our professional sales network includes:

- Regional Manufacturer Representatives
- Restaurant Equipment Dealers
- Commercial Furniture Distributors
- Interior Design Firms and Architectural Firms
- General Contractors
- Professional Consultants

## SUPERIOR CONSTRUCTION & BUILT-IN QUALITY

JustChair's superior booth construction combines attractive styling and comfort with durability. Our booths are designed and built to last for years. All booths are specified with the highest quality materials available. All of our upholstered booths feature heavy duty computer-cut frames and are reinforced with corner blocks and hardened steel supports.

1/8" Thick foam adds padding & softens the look of the wood

1" Thick Foam, 1540 Density, CAL 117 rated, creates a firm, comfortable back cushion

1/8" Thick masonite gives the back strength & rigidity

3/4" Thick plywood post panels

1/8" Thick foam adds padding & softens the look of the post panel

No Sag® springs reinforced with steel interlocks provide long lasting support & comfort

3/4" Thick plywood seat & frame provides long lasting strength & durability

7/8" Thick solid wood kick base for added strength & durability

Standard black vinyl covers & protects the wood

Versare covers springs & adds an additional layer of support

Sisal creates an even platform on which to build up material for a smooth seat

1" foam, 1845 density, CAL 117 rated, creates a firm, comfortable seat cushion

Traditional cotton batting adds an extra layer of padding & helps to create a smooth seat

Reinforcing corner blocks add stability to the frame

One-piece end & center ribs are glued and stapled to solid wood rails. This keeps the back from "rocking" or breaking down

# CONTOUR SEATING

Cluster Style Intergrated Seating Units

07

# CONTOUR

JustChair's steel frame contour seating is designed and built to last and is easier to assemble than competitive brands. Seat mounting hardware is pre-attached at the factory and the frames require no assembly, saving money by reducing installation time.

Super-duty, 5 layer molded design. Holds firm and lasts for years.

Exclusive, (no assembly) heavy-duty one-piece 14 gauge welded steel frame. Table support is welded to the frame. The table attaches to the support with (6) screws

Seat mounting hardware is pre-attached at the factory to make set up fast and easy.

High impact polymer glides easily thread into the frame and will not cut the floor surface. The glides have an anchor hole if installation requires the booth be fixed to the floor

## FURNITURE UPHOLSTERY TYPICAL

### GRADE 2: OLYMPUS VINYL CONT...

1,800,000 Double-Rub Resistance

### CLEANING INSTRUCTIONS

Remove ordinary dirt and smudges with a mild soap and water solution and a clean, soft cloth or towel. Dry with a soft, lint-free cloth or towel.

**Caution:** *The use of upholstery "Conditioners" or "protectants" is not recommended and should be avoided on Olympus.*

Although Olympus is resistant to most common stains, the dyes and pigments in some staining agents have the ability to create a permanent stain if not treated properly. To clean difficult stains from Olympus, locate the staining agent in the lists below and follow the corresponding recommended cleaning method. For best results, treat all stains immediately

**Staining Agents:** Baby oil, ketchup, chocolate, motor oil, olive oil, grape juice, urine, blood, tea, coffee and beta dine - Use Method 1.

**Staining Agents:** Eye shadow, crayon, grease, tobacco tare (nicotine), permanent felt tip marker, yellow mustard, lipstick, ballpoint pen and spray paint - Use Method 1. If stain remains, use Method 2.

#### Method 1:

Use one of the following cleaners with a soft cloth or damp sponge. Rinse area with fresh water then dry with a clean, lint free cloth.

**Formula® 409 All-Purpose  
Spray Cleaner.**

**Fantastik® Spray Cleaner.**

#### Method 2:

Use a solvent-type cleaner, such as a rubbing alcohol (isopropyl alcohol). Rinse cleaned area with fresh water then dry with a clean, lint-free cloth. If the stain persists after six rubs, the stain has set and probably cannot be removed. Rinse cleaned area with fresh water, then dry with a clean lint-free cloth.

# OPTIONS

## CUSTOM & BUILT TO ORDER

JustChair offers unlimited customization options. Stock products will always be the fastest and most economical.

### FACTORY VS LOCAL CUSTOMIZATION

Factory customization (international production) costs much less than local customization (US production) of projects.

But factory customization requires a minimum of 16 weeks lead time, due to production lead time, sample approval and container shipment schedules.

Examples of factory customization, would be a physical change to wood chair frame, or complex refinishing.

Possible examples of Local Customization (LC), would be re-powder/color of a metal product, or reupholstery of an upholstered chair.

### CUSTOM WOOD FINISHES

Custom wood finishes can be produced on any built-to order product. Color matching fees do apply.

Typically, color matching will add 2 weeks to a project's lead time.

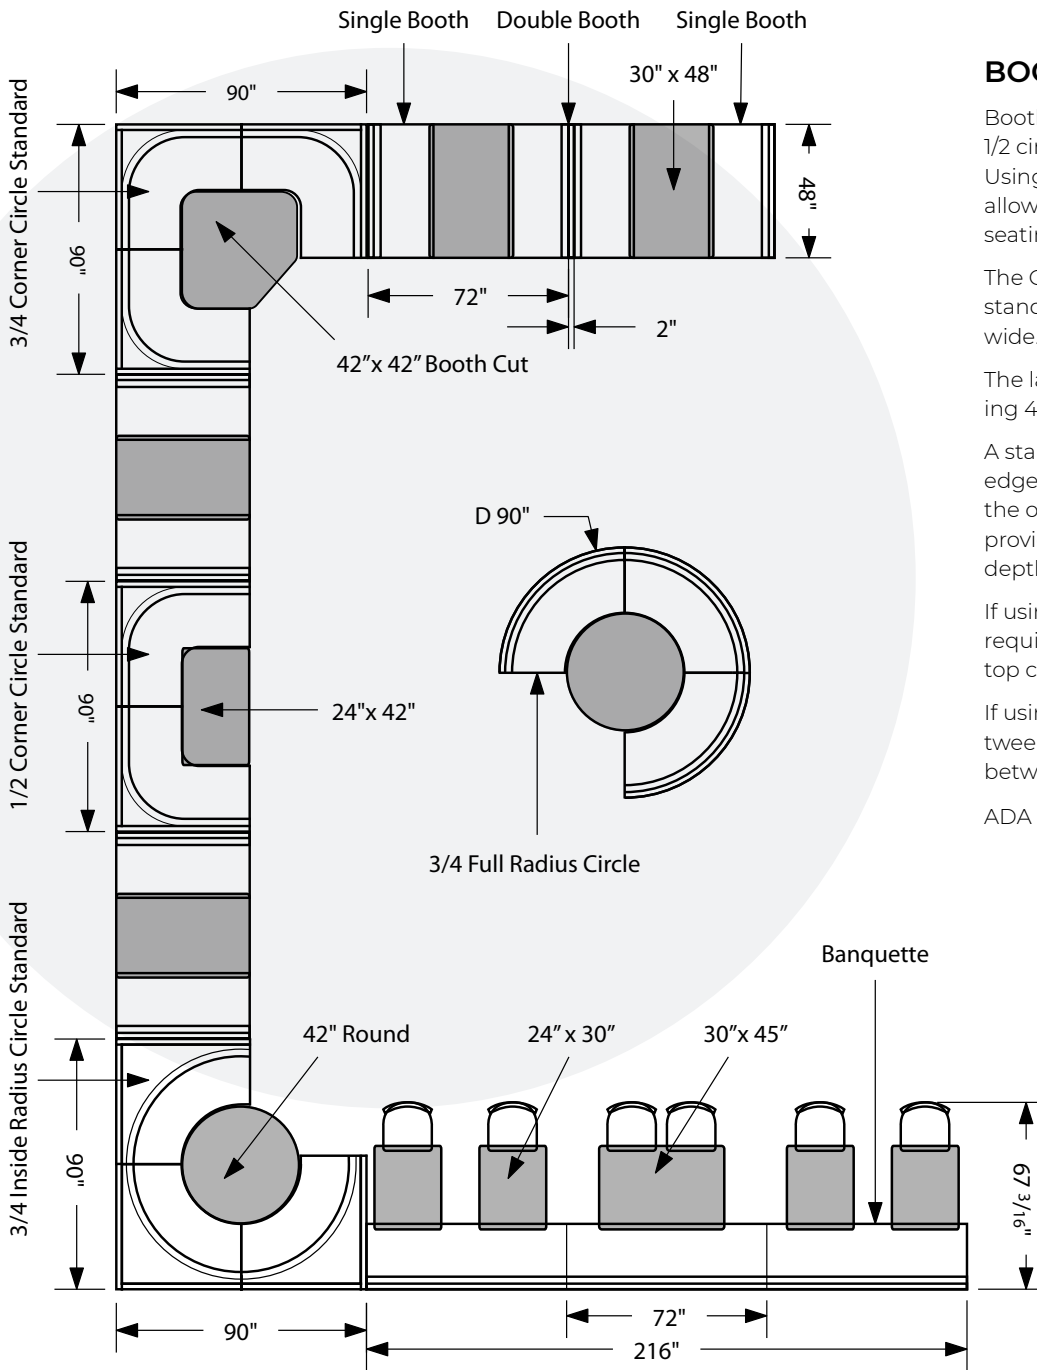

### FACTORY BUILT-TO-ORDER PRODUCTS

We do have factories and contract manufactures in the US and internationally.

Banquet seating, custom wood color tops or wood seating are all internationally built-to-order products with a Minimum of 12 week lead times.

Booths, Millwork, Laminate tops, DesignChoice™ tops, Werzalit tops and umbrellas are all US built-to-order products which require a Minimum of 4 week lead times.

## BOOTH SPACING

Booths are available in single, double, 1/2 circle, 3/4 circle and wall benches. Using a wall bench with small tables allows easy conversion from couple seatings, to large parties.

The QuickShip top cap is 1.75". The standard and custom top cap is 1.75" wide.

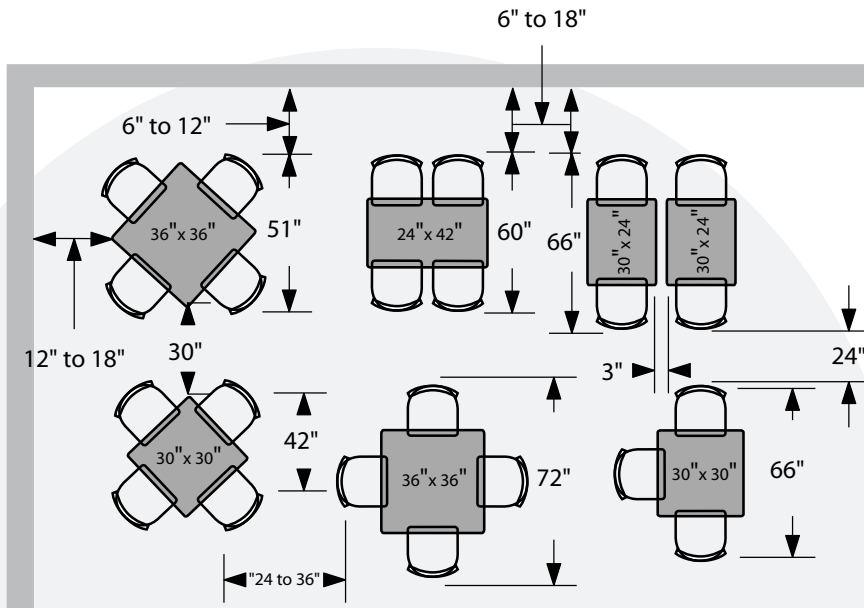

The layout below, demonstrates using 46" long booths.

A standard layout allows the table edge to overlap by 1" vertically with the outer edge of the booth seat. This provides a comfortable 17-18" seating depth.

If using 30" wide tables, then booths require 72" from center to center of top caps.

If using 24" wide tables, the space between booths can be reduced to 66" between the center of top caps.

ADA requires a 36" wide table.

## AISLE WIDTHS

Wait staff aisles can be 24" to 30", with service/main aisles 36".

Recommended square inches per seat:

Banquet (close seating):  
96-120 sq/in per person.

Casual Dining:  
120-144 sq/in per person.

White Tablecloth (spacious seating):  
144-168 sq/in per person.

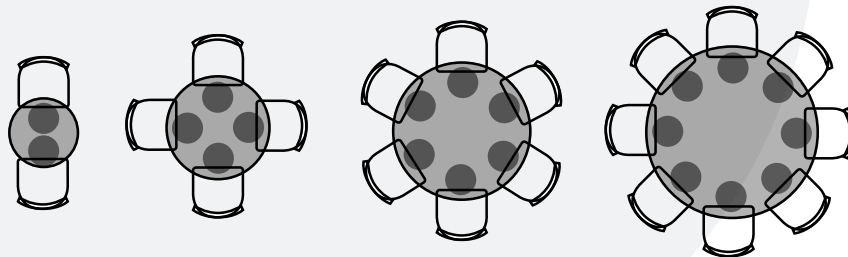

## TABLE SIZES

The architectural standard for dining suggests that 300 square inches of space be allowed per diner.

24" table width is a Minimum, suitable for a diner. 30" is the standard width.

Family dining with platters in the center should consider 36" widths.

Shading representing 10" plates is shown on the diagrams below.

# ABOUT

## UNDERSTANDING FREIGHT

Shipping furniture notes and information.

For freight quotes: e-mail [freight@justchair.com](mailto:freight@justchair.com)

### TYPES OF FREIGHT

**Small- Parcel / Ground:** Boxed items. Normally less than 24" x 24" x 40" to avoid oversize charges. Max ground size for example is 24" x 24" x 58".

**Medium- LTL:** Less than truckload, palletized freight, Minimum of 150 lbs. Ships from terminal to terminal, then is delivered via a local truck having multiple stops in the area. Normally Limited to 6 pallets or less.

**Large- FTL or Dedicated Truck:** Full truck load 26' or 53'. Items are not palletized. They will hand-stacked (floor loaded), loose or boxed.

### DELIVERY

**Small- Parcel / Ground:** Packages are picked up and delivered to the door of the receiver.

**Medium- LTL:** Less than truckload. These normally arrive at the discretion of the trucking company. 4 hour appointment windows can be arranged as an added service with an extra day of shipment time.

**Large- FTL or Dedicated Truck:** Full truck load. Items are not palletized. They are normally floor loaded (loose) or boxed.

**Unloading:** The truck driver is required to open the back of the truck only. The receiver is responsible for removing the items and packaging from the truck within an hour of arrival.

**Special services (additional charges):** Limited delivery sites, gated areas, lift-gates, unloading, inside delivery, extended wait time, installation, to name a few.

### THINGS TO CONSIDER FOR LTL/FTL/ DEDICATED TRUCK:

**Unloading:** Have plenty of help for unloading. Normally two people in the truck and two people accepting the furniture then walking it in. Note that for most furniture, it is easier to hand off at truck height, than using a lift-gate.

**Inspection and damage: NEVER refuse.** It can delay replacements or repairs for weeks as the freight company tries to reroute. Always photograph and notate any visible damage on the bill of lading when you sign.

**Concealed damage:** The driver is not responsible to wait for inspection inside the packaging. Please provide descriptive photographs and e-mail your sales rep as soon as discovered.

**Repairs and replacements:** Furniture is often built-to-order and highly modular. Many of the damaged components can be quickly replaced without complete remanufacture of the entire unit.

# 9 STEPS TO BUILDING QUALITY

Certified 40 Year German beech wood, is tough and consistent

1

2 Fabricated with computer precision for a perfect fit
